More Information

Pick your bed size

This bed is available in your choice of size! Select your size above or check out all the dimensions below to help make your decision.

5 zone contour response pocket spring

Our pocket spring system provides individual support and uniquely conforms to your bodies shape whilst targeting pressure relief in the hip and lumbar area.

Edge Care comfort plus

High density polymeric foam box construction provides full edge support creating luxurious comfortable feel whilst maximising the sleeping surface.

ViscoCare gel foam

Do you sometimes overheat during the night? ViscoCare gel foam infuses memory foam with gel particles to help prevent you from getting too cold or too hot overnight. On top of that, it also provides better support, breathability and body contouring!

Non-flip mattress

This mattress is fitted with a supportive base and plush, comfortable layers on top so you can forget having to flip your mattress to keep it comfy.

Progressive support technology

Our mattresses are specifically engineered to provide comfort at the top of the bed and firmer support towards the spring, allowing the sleeper with a long lasting progressive feel.

Minimal partner disturbance

If your partner tossing and turning at night sometimes wakes you up, this mattress will be a dream come true for you. This design is purposefully crafted to ensure minimal partner disturbance, so that you can both enjoy uninterrupted Z's.

Bamboo

Blended into the top of the bed, this natural material provides increased ventilation and breathability allowing excellent cooling properties for the concerned sleeper.
