7 zone contour response micro coil pocket spring with motion deflector

Our micro coil pocket spring system provides individual support and uniquely conforms to your bodies shape whilst targeting pressure relief in the hip and lumbar area.

Edge Care comfort plus

High density polymeric foam box construction provides full edge support creating luxurious comfortable feel whilst maximising the sleeping surface.

ViscoCare gel foam

Do you sometimes overheat during the night? ViscoCare gel foam infuses memory foam with gel particles to help prevent you from getting too cold or too hot overnight. On top of that, it also provides better support, breathability and body contouring!

Progressive support technology

Our mattresses are specifically engineered to provide comfort at the top of the bed and firmer support towards the spring, allowing the sleeper with a long lasting progressive feel.

ViscoCARE Graphite

Advanced memory foam infused with graphite particles act as a super conductor that draws heat away from the surface and disperses through open cell technology.

Minimal partner disturbance

If your partner tossing and turning at night sometimes wakes you up, this mattress will be a dream come true for you. This design is purposefully crafted to ensure minimal partner disturbance, so that you can both enjoy uninterrupted Z's.

Xtra cool

High performance and innovative fabric which offers a cool to touch feel, great softness and excellent temperature management.
