More Information

Renewable hardwood timber

This design is crafted from high quality renewable hardwood timber so you can be assured that not only are you getting the highest quality furniture, you are also supporting climate-friendly renewable land use. Good on you!

Low-Foot Design

Easy to assemble

Forget spending hours trying to make sense of indecipherable assembly instructions, this design is very easily assembled so you can spend less time decoding and more time admiring your new addition.

Perfect for kids

This design is the perfect choice for kids bedrooms! We've made sure this bed is made to last throughout all the growth spurts, milestones, and bedtime stories that fill your little one's life.

Timber slats

Feel supported and comfortable all night long with this bed's inbuilt timber slats. Timber slats are flexible enough to allow for movement and adjustment while maintaining a firm support. In double or larger beds we add two separate sets of slats for either side. This allows for one side to adjust without affecting the whole bed, which means even if your partner is tossing and turning, you won't be!
